

SOUND THE TRUMPETS

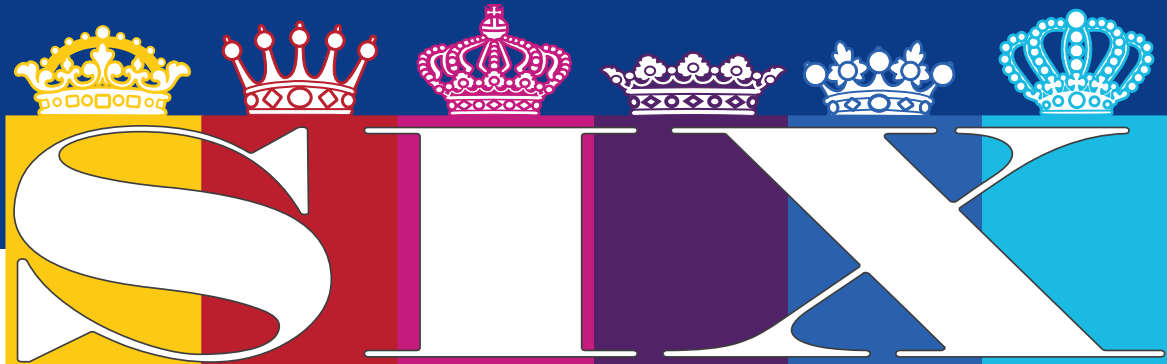

AND JOIN US AS WE MAKE OUR WAY

to a reimagining of 16th century England at your choice of one of six homes near our Centers to celebrate and raise funds for Chase Brexton Health Care.

Chase Brexton Health Care

PRESENTS

A ROYALLY UNIQUE GALA FROM MONARCHY TO MUSICAL TO MARYLAND!

SATURDAY, MAY 14, 2022

An Intimate In-Person Gathering or Virtually – As You Wish!

Your presence is requested at one of our SIX intimate house parties, hosted by Chase Brexton's loyal and royal supporters. Sip the finest of cocktails, relish the most delicious of delicacies, and enjoy House of Tudor-worthy entertainment at Chase Brexton Health Care's signature biennial event.

This royally unique gala is inspired by the Broadway musical SIX, a modern reimagining in which Henry the VIII's six wives redesign their destinies, eclipse the patriarchy, proclaim their liberation, and embrace equity!

**Just like SIX, our gala is a far cry from the same old story.
Prepare yourselves for an evening that redefines the galas of old.**

All are welcome. Virtual registrations are unlimited and free!
Dress code is as requested by Castle Hosts.

Proceeds will support two of Chase Brexton's newest community programs:

Every Meal Matters
Diversity, Equity, & Inclusion Center of Excellence

The Chase Brexton Every Meal Matters Program

As food insecurity has increased, Chase Brexton has responded. Our newest project, the **Every Meal Matters** program was established to provide healthy, nonperishable boxed food to our patients, no matter what the reason. Every \$40 raised adds a week's worth of supplemental food to the pantry of a family of four.

Diversity, Equity, & Inclusion Center of Excellence

The **Diversity, Equity, & Inclusion Center of Excellence** is Chase Brexton's response to the reality that as we grow, we must be more cognizant of our impact on society. The majority of our patients and staff are negatively impacted by systemic racism and social discrimination. Created by our staff and supported by the Board of Directors, this Center and its work is a pursuit of systemic change. Staff training to understand, recognize, and address biases and inequities will enable us to provide patient-centered, culturally competent care at a higher level. In line with our mission, being better able to connect with our patients, address their needs, and be their allies, the DEI Center will reduce health inequities and drastically improve our communities.
